

## DEMOCRATS TO CONVEENE, NAME DELEGATES SAT.

### PRECINCT CONVENTIONS SATURDAY IN THE COUNTY

**A. M. Smith Succeeds W. C. Black As County Chairman—Nothing Said About the Pledge**

Democrats of Randall County will meet in precinct conventions Saturday for the purpose of naming delegates to the county convention next Tuesday which in turn will name four delegates from Randall County to the state convention at Houston, at which time Texas will express choice as to the Democratic choice for the presidential candidate in the November election.

The County Democratic Executive Committee met Saturday to fill all vacancies on the committee. The resignation of W. C. Black, county chairman, was received and A. M. Smith named in his place. No mention was made of the pledge, which was recently voted by the State Committee.

The precinct conventions will be held in all precincts of the county Saturday afternoon at 2 o'clock. The following precinct chairman will preside at the places designated for the conventions:

- No. 1—Hud Prichard, at the Courthouse.
- No. 2—Tom Hileman, at Jowell school house.
- No. 3—T. V. Slack at Ralph.
- No. 4—E. N. Zachery, at Fairview.
- No. 5—James E. Park at Park School.
- No. 6—Glen Costley, at Trig.
- No. 8—Louis Wiek, at Umbarger.
- No. 9—W. J. Fleisher, at South Amarillo school.
- No. 11—R. O. Allison, at high school.
- No. 12—Cass Jennings, at College Oasis.
- No. 13—Fred Marshall at Palo Duro School.

The delegates elected Saturday at the precinct conventions will meet in county convention next Tuesday afternoon at 2:00 o'clock at the courthouse where the four delegates to the state convention will be named. County Chairman A. M. Smith will preside at the county convention.

## Home Ec. Agents To Meet Here On April 13th

The Home Economics Department of the College is making preparation to entertain between two and three hundred women on May 13, this being the third annual Home Demonstration Clubs of the sixteen counties included in district one and district two will participate in the meet. The program has been planned by Miss Minnie Mae Grubbs and Miss Myrtle Mae Murray, supervisors of the two districts, cooperating with Miss Marian I. Normington of the College. A special program by the physical education department of the College, a talk on "Places of Historical Interest of Texas" by Professor L. F. Sheffy, an illustrated lecture by Miss Darthula Walker, head of the Geography department and music by the college band and college chorus will be features of the day.

Home Demonstration Agents who expect to be present include: Lula Mae Martin, Hereford; Mary Sitton, Amarillo; Margie Lyon, Panhandle; Ruby Adams, Pampa; Mrs. Gladys Weaver, Canadian; Viola Jones, Wheeler; Martha Buttrill, Clarendon; Doris Leggett, Vernon; Elsie Phillips, Quanah; Helen Cowan, Childress; Clara Pratt, Spur; Martha Faulkner, Floydada; Mrs. Julia Kelly, Plainview; Izora Clark, Dimmitt; Pauline Lokely, Tulla; and Ruby Mashburn, Amherst.

### MRS. J. T. HOLLAND DIES AT MINERAL WELLS

Mrs. John T. Holland, former citizen of Canyon, died Saturday at her home at Mineral Wells. The family left here about fifteen years ago. C. R. Holland and family had been called to Mineral Wells Friday but did not reach there before his mother's death.

The funeral was held Sunday, with interment at Mineral Wells by the side of her husband, who died a few years ago.

### IN HOSPITAL

Mrs. R. A. Bellah is in the General Hospital in Amarillo for a several weeks rest cure. Her condition is reported to be improved.

## Eleven Deer Are Placed in Palo Duro on Thursday

Eleven deer were released in the Palo Duro Canyon Thursday by J. J. Dent of the Texas Game, Fish and Oyster Commission. Five does and six bucks were brought from the Kerrville preserve by Mr. Kent for the Palo Duro, and one pair was taken to Canadian to be placed on the ranch of Judge H. E. Hoover.

Mr. Dent was highly enthusiastic as he viewed the Palo Duro and noted the possibilities of the future home of the deer. He pronounced it the natural home for deer and predicted that with the co-operation of land owners and people of this section that fully 1,000 deer would roam the canyons in the course of ten years.

The deer were placed on the E. D. Harrell ranch, southeast of Canyon. The land is in the middle of the 90,000 acre game preserve which was established several years ago, on which no hunting is allowed. Mr. Harrell and all other land owners in that section are very greatly interested in seeing that the deer have a chance to increase. There have been a few deer in that section for a number of years, and it is expected that with the addition of these eleven the number will increase rapidly. The leader of the eleven released Thursday is an eleven-year old doe which has been raised at John Tarlton College. All of the deer are very tame, and will eat out of the hand. Picnic parties may expect visits from the deer along the Palo Duro.

All citizens of the county are asked to assist in protecting the deer in order that a large herd may result from the placing of the eleven at this point.

## Five Injured In Auto Wreck Near City Tuesday

Five persons were injured, two seriously in a wreck involving three automobiles, at 2:30 o'clock Tuesday afternoon about six miles southeast of town.

Two cars collided head-on and struck another car, as students of the Panhandle High School were returning from a Senior Class Day outing in the Palo Duro canyon. Fast driving and dusty roads were attributed to be the cause of the accident.

Mrs. A. L. Stevens of Happy and Ralph Higgins, a member of the Panhandle Senior class, received worst injuries. The others, Miss Lola Yates, Miss Nona Parcels, and Miss Gladys Duren, all of Panhandle, received minor injuries and bruises.

All of the injured were given first aid treatment here. Mrs. Stevens was later taken to an Amarillo hospital for further treatment. Her most serious injury was a dislocated hip. Young Higgins received several deep cuts one cut severing an artery in the head.

It was stated that the accident happened when two cars collided causing one of them to strike a third car. Witnesses of the wreck stated that the car in which Higgins was riding was attempting to pass another car when it and the car in which Mrs. Stevens were riding collided. It was not learned who the drivers of all the cars were. A very dusty road obscured the vision of the drivers, making it impossible to see the approaching cars, it was stated.

Riding with Mrs. Stevens was a daughter, Miss Eunice.

## Faculty Rules Agents Barred W. T. Campus

At its regular meeting Tuesday the faculty of the College voted to bar all agents and salesmen from the campus of the college, except those who are selling supplies or books to be used within the college itself. This means that agents and salesmen having wares to offer faculty members or students must see them off the campus, the faculty believing that their time while on college property belongs to the state.

July 18 to 23 is set aside, however, for representatives of magazines, book companies and school supply houses to show their materials to both students and faculty.

The action taken by the faculty came as a result of unfortunate experiences of students with agents and salesmen and to conserve the working time of instructors and administrators of the college.

## JERSEY IS HIGH COW IN ASS'N DURING APRIL

### GAMBOGE'S KING'S JUANITA PRODUCES 1800 LBS. MILK

**Total of 97 Cows from 13 Herds Make Honor Roll Past Month; Jerseys Win Honors**

A production of 1800 pounds of milk containing 77.3 pounds of butter fat was the record of a purebred Jersey cow in the Tierra Blanca Jersey Farm herd for the month of April to top the list of the Honor Roll cows in the Randall County Herd Improvement Association.

This cow, Gamboge's King's Juanita, headed the monthly honor roll of the association, which lists 97 cows which produced either 1,000 pounds of milk or 40 pounds of butter-fat during April. This is almost a record honor roll for the association, which will complete its second year with the month of May. This will mark the end of three years of testing by some of the dairymen, who were affiliated with the Deaf Smith-Randall County association, for a year before the Randall organization was formed.

Cows from 13 herds in the association placed on the honor roll this month. Ten of these are grade herds while three are purebred herds. Marie, a grade Jersey in the J. W. Watson herd was second in butter fat production with 74 pounds for the month. Lovely Girl Flora, a purebred Jersey in the Stewart herd was third in butter fat production with 71 pounds. The 97 cows making the honor roll produced an average of 116 (Continued on last page)

### WHEAT IS FINE

Frank Arnold of Happy was in the city Friday and states that he has one of the best wheat crops he has ever raised. Neighbors estimate that he will make 35 to 40 bushels per acre on summer fallowed land.

Mr. Arnold is one of the best wheat farmers on the Plains.

### I. W. McCURE DIES

S. B. McClure received a telegram Sunday that his brother, I. W. McClure had died at his home in Tampa, Fla. Mr. McClure was a resident of Randall County for several years, and was a county commissioner about 25 years ago. He has been in very bad health, and recently suffered a stroke of paralysis.

### GETS FREE STOVE

Walter Stubblefield of Happy was the one to make the lucky guess on the stove at Thompson Hardware Co., Saturday, and received a new Perfection oil stove. The guess was to the time it would take two kettles of water to boil dry with the blaze turned at different heights.

## Road Work On Highway 9 Begins This Week

Construction work on Highway 9 south to Happy was started Wednesday from the Happy end of the line according to E. H. Gohmert, resident engineer. Work is also expected to be on Highway 33 west soon, said Mr. Gohmert, as the equipment for this work is scheduled to arrive within a few days.

Caliche for the work on Highway 9 will come from the Hickox place between Canyon and Happy. The construction camp is located a few miles south of Canyon. According to the contract 140 working days will be given for the completion of the job. It is expected that at least 25 trucks will be employed in the construction work. Approximately \$5,000 per week will be paid out and put into circulation through this road job, and over \$200,000 will be spent in the paving operations on both Highway 9 and Highway 33.

### SPECIAL TRAIN LEFT FOR LEAGUE MEETING

A special train left this morning for Austin bearing the contestants from District No. One of the Interscholastic League to participate in the state meet, held under the direction of the University of Texas.

W. E. Lockhart, director of this district, was in charge of the train. Mrs. Wallace O'Keefe accompanied the contestants on the train as chaperone for the girls from this district.

Walter Johnson of Dallas spent Wednesday night in the parental B. T. Johnson home.

## Rotary Club Hears Report on Student Loan and Scouting

The Rotary Club heard reports Tuesday of the work of the Student Loan Fund and had a report from Rev. L. R. Hudson, scoutmaster, on the work being done by the Boy Scouts.

The birthdays of Bob Jarrett, on Tuesday, and Marion Bishir, on Thursday, were observed.

Oscar Gano, Harry Brown, Burt Newlin, Tom Knighton and Bill Bryant were absent Tuesday, being delegates to the State Rotary convention at Mineral Wells.

The program was in charge of Irby Carruth. Bill Warren reported on the Student Loan Fund. The fund was started in 1930, with \$123 paid in by the members of the Club. Since that time eight loans have been made, part of which have been repaid. In the future loans will be made only when the notes are signed by a member of the Rotary Club, or by a responsible business man.

Rev. Hudson stated that as scoutmaster, he had found that no activities outside those of the church and the school presented such opportunities or covered such a scope as did the Boy Scout work. The aim is to build characters and citizenship for the boys. Scouting is a great game for the boys, with diversified activities in which 89 opportunities are offered for merit badges, including every field excepting that of the ministry.

Mr. Hudson appreciated the fact that the Rotary Club sponsors the Boy Scout work in Canyon, and co-operated in every way. He stated that only 9 of the 29 Scouts had full uniforms. These cost about \$5.00 each, and he urged citizens to give the boys jobs so that they could earn money with which to buy these uniforms.

Mr. Carruth called attention to the fact that two kinds of activities are going on among the boys of Canyon—one, the kind on by Boy Scouts, and the other by boys who frequent the alleys. One man cost a neighboring county \$12,000 in his life of crime. Money spent in making boys good citizens is money well invested.

### IRENE LESEBERG WINS 1st PRIZE IN SALE CONTEST

Winners in the contest staged by the Canyon Supply Company during the recent sale were: Irene Leseberg, winner of first prize, a bedroom suite; Lula Visage, winner of second prize, a dress; Mrs. Bill Charles, winner of third prize, a pair of sport slippers; Mrs. Dave Clark, winner of fourth prize, a coat; and Edith Steen, winner of fifth prize, a box of hose.

Mr. and Mrs. Lige Frieze motored to Lubbock Sunday where they visited with Mrs. Frieze's sister, Miss Kathryn Tanner.

### Culinary Expert

MRS. LEONA RUSK IHRIG

Mrs. Leona Rusk Ihrig, nationally famous culinary expert, who will conduct the Canyon News First Annual Cooking School which is to be held at the American Legion Hall, June 7, 8, 9 and 10.

## Woodul Urges Voters Attend Conventions Saturday and Tuesday

The News received the following telegram this morning:

"Speaker Garner's clear cut victory in California should solidify sentiment of every local Texan behind his cause at the Chicago Convention. I will appreciate it if you will print this telegram in your columns urging all good Democrats to attend the precinct and county conventions and see that loyal Texas supporters of Mr. Garner, are sent to the state convention. John Garner's record is all the platform Texans should desire and I urgently request that no platform demands be adopted and that no second choice instructions be given to embarrass this opportunity."

WALTER F. WOODUL, State Chairman, Dallas Tex.

### SAYS WHEAT IS GOOD

Walter Kuehn was in the city Saturday from his farm in the southeast part of the county. He states that his wheat is good, and indications are fine for most of the wheat of the county. However, he believes that about half of the wheat of the county was lost during the dry weather this spring.

### UNDERGOES OPERATION

Mrs. William Robinson underwent a major operation at St. Anthony's hospital in Amarillo Saturday morning. She is reported to be resting well at the present but expects to stay in the hospital for several weeks.

## Many Farmers Are Given Aid Thru Federal Loans

Saturday marked the last day for farmers to apply for a Federal Crop Production Loan. About sixty applications for loans were filed in Randall county. Returns on a number of the applications are yet to be received from the Dallas office.

The total amount of loans which had been allowed in this county up to Tuesday was approximately \$9,500.00. This represented money loaned to 45 farmers in the county. The largest single day's receipts of loans granted in this county was received last Thursday for filing in the District Clerk's office. Eight loans amounting to \$1,574.00 were received.

The first application in this county was filed with the local county committee on March 10. W. C. Black, R. O. Allison, and T. C. Thompson have served as the county committee. They were appointed to work without pay. All local representatives worked throughout the county without pay, thus cutting down the cost of distributing the crop production loan money.

The loan was made possible thru an appropriation of \$50,000,000.00 made by Congress in January as a part of the Reconstruction Finance Corporation. The crop production loan clause of the act creating the Reconstruction Finance Corporation was introduced by Marvin Jones, congressman from this district.

The work in the county was conducted under the direction of County Agent W. H. Upchurch. The Chamber of Commerce furnished the services of the secretary to assist in filling out application blanks and other papers necessary to secure a loan.

## Rural School Meet Staged Saturday by Training School

One hundred and sixty-seven contestants, 91 boys and 76 girls, from ten schools took part in the second Annual Invitation Meet held by the elementary division of the Demonstration School. The meet was under the direction of Arthur K. Goodman, director of physical education in the intermediate grades, and assistants Floy Shaw and Otis Burk, advanced students in physical education. The contests in declamation were under the direction of Novella Gookman.

Contesting schools were River Road, Potter County; Dawn, Deaf Smith; Tierra Blanca, Garrison, Zita, Lakeside, Brady, Jowell, and Sunny Hill, and Demonstration School, Randall County.

Events were held in track and field, declamations, and playground ball for both boys and girls. River Road school won first place with a total of 213 points, Demonstration school second with 188 points, and Sunny Hill third with 136 points. Every contesting school won points.

In declamations Sunny Hill took first place with 34 points, Demonstration School second with 26, and Zita an Tierra Blanca tied with 11 points for third place.

First in playground ball was won by River Road, second by Sunny Hill, and third by the Demonstration School, and fourth by Tierra Blanca in the boys' division. Sunny Hill girls won first and Demonstration School won second in the girls division.

This event is an annual affair and, its success this year exceeded all expectation.

### MISS USERY PLAYS MOZART CONCERTO

Tuesday morning at the chapel hour at the college, Miss Frances Usery, pianist, played the Allegro and Romance movements of Mozart's D Minor concerto. Revealing an unusual understanding of the composition and a technique sufficient to execute the most difficult passages, Miss Usery gave an outstanding interpretation of these contrasted movements. Miss Usery is a junior in the department of music at the college, and a pupil in piano of Miss Pauline Brigham. She has shown herself to be an exceptional student, and her recent performance solicited the highest praise. She was accompanied by the college orchestra under the direction of Professor Wallace R. Clark.

### ATTEND CONVENTION

Mr. and Mrs. A. E. Terry, Misses Irene Meyer, Mabel Thornton, and Viola Shackelford attended the Convention of Beauticians in Lubbock last week.

## TAXPAYERS TO MEET AGAIN ON SATURDAY P. M.

### FIRST MEETING LAST SATURDAY WITH 75 PRESENT

**Committee Will Make Recommendations as to Constitution and Members Executive Committee**

Seventy-five taxpayers gathered at the courthouse Saturday afternoon and discussed the formation of a Taxpayers League. Clyde W. Warwick was elected temporary chairman, and C. R. Fleisher temporary secretary.

Short talks were made by Mr. Warwick, John T. Wiley, Judge S. B. Orton, J. B. Fox, J. L. Dufloet and John Knight. Mr. Dufloet outlined his conception of a taxpayers League, the purpose of which should be to see that every person in the county was paying his just part of the taxes. He called attention to the fact that big property owners were not primarily big taxpayers, as many of them were tax dodgers. If everyone was paying his just part of the taxes, there would be no great deficit as at the present time.

James H. Bush, secretary of the Amarillo Taxpayers League, was unable to be present, but sent a copy of the constitution and by-laws of that organization. This document was turned over to a committee to be revised and will be adopted at a meeting to be held next Saturday afternoon at 3:00 o'clock.

It was voted that the chair appoint a committee of five to make recommendations next Saturday afternoon as to the organization of the Taxpayers League and to recommend members of the executive committee which shall direct the activities in the county. This committee is composed of G. G. Foster, J. I. Ballengee, John Knight, J. L. Dufloet and E. D. Harrell.

Mr. Foster called his committee to meet Monday night, at which time all of the preliminary work was outlined. The committee will report an executive committee of eleven men.

It is urged that every taxpayer be present Saturday afternoon at 3:00 o'clock for the purpose of entering into the organization. All taxpayers of the county are eligible to membership, and no dues are collected. After the executive committee is named, this committee will select from its number a president and other officers, together with an advisory committee of 25 from every section of the country.

## More Than 300 Visit Palo Duro Park Sunday

Three hundred nine visitors from widely scattered points over the globe registered at the Palo Duro Free Park last Sunday. Ideal spring weather was an aid in causing the large crowd to visit the park. Ray V. Davis, custodian stated. Essen, Germany and Toronto, Canada were the cities outside the United States listed on the register book.

Texas cities represented during the day were: Muleshoe, Canyon, Amarillo, Waxahachie, Austin, Lubbock, Shamrock, Dallas, Hereford, Pampa, Cooper, Hot Springs, Kalmoth Falls, Plainview, Kings Mill, Saint Jo, Dimmitt, Prairie View, Bruceville, Borger, Claude, Quannah, Tulla, Canadian and Fort Worth.

Out of state people registered were from the following cities other than Toronto, Canada and Essen, Germany: Ottawa, Kans.; Shawnee, Okla.; Washington, D. C.; Canon City, Colo.; Denver, Colo.; Sapulpa, Okla.; Oklahoma City, Okla.; Portland, Ore., and New York City.

## Hill Attends the Meeting With New Education Board

President J. A. Hill was in Dallas Friday and Saturday attending a meeting of the State College presidents and the State Board of Education. Under the law creating this board, it has power to make recommendations as to the management of the state colleges.

Dr. Hill states that the meeting was very harmonious, all of those participating seeking to do the best possible for the various institutions.

Mr. Hill will attend a meeting of the Board of Regents of Teachers Colleges at Austin next week.

Soaking the candidates will be the popular pastime this summer. Ofttimes it is the doubtful pie supper at which popularity and votes are supposed to go to the candidate who pays the highest premium into the school or church treasury, which sponsors the entertainment, and draws in a few voters who enjoy the racket. But the best one going the rounds is for the racketeer to promise a "big" crowd of voters. He gets a broken-down motion picture machine, a \$5 silent film, and stretches a sheet on the side of a building. A few gather to see a free show, and then the candidates, who have contributed \$5 each, attempt to make a speech to the rapidly vanishing crowd. Most candidates are running for jobs because they need the money. To take money away from them under the guise of furnishing an opportunity to meet the voters and not deliver is simply hi-jacking men and women who cannot afford to be victims. The safety of democracy depends upon the kind of candidates who offer for office. Be courteous to the candidate, even though you do not intend voting for him, and do not take his money under false representation.

The Virginia deer were turned loose in the Palo Duro Canyon Thursday on the E. D. Harrell ranch. Mr. Harrell and other land owners are pleased to have the deer on their land, and will seek in every way possible to protect them. This land is a portion of the 90,000 acre game preserve which has been set aside by the land owners for the purpose of increasing the game supply of the Panhandle. Gene Howe, editor of the Amarillo Globe-News and an enthusiastic sportsman, is a member of the Texas Game, Fish and Oyster Commission which placed the deer in the Palo Duro. Mr. Howe offers a reward of \$100 for information leading to the arrest and conviction of any person who should kill one of these deer. The Canyon News will add \$100 to this reward, and we believe that the citizens of Canyon will increase the standing offer to at least \$500. Let's protect the deer, and give them a chance to multiply. There should be a large herd of these pretty animals in the Palo Duro. Every citizen of the Panhandle should assist in protecting the deer.

Progress in the collection of the \$25,000 for the Panhandle-Plains Historical Society museum building is being reported. Interest in the building is not local in nature, as citizens of other states, as well as citizens in practically every town of the Panhandle-Plains section are responding to the call for contributions. It will be up to the citizens of Canyon to see that all of the money is finally raised. Each and every citizen has a duty to perform in the erection of this building, and should do his full part in the way of a contribution. The time is getting short, and action must be started at once.

With two highways being paved in the county, local labor conditions should improve very materially. However, if you have any work around your place which you contemplate doing soon, now is the time to start it with labor and materials both very cheap.

Charley Lockhart, state treasurer, has announced that the cigarette tax is bringing in more money than was expected, and that \$12,400,000 will be paid into the treasury as a result of the tax. As was expected cigarette bootleggers are becoming active in the state, and dealers are resenting the tax very much. No matter what the law may be there will be those who seek to evade it. Regardless of the merits of the cigarette tax, those who are fighting it should remember that unless this tax had been passed the school apportionment would have been lowered. The cigarette smokers are paying a considerable sum to the upkeep of the school system of the state, without which money, school terms would have been cut short this year.

Now that the taxpayers leagues have swung into action over the country, they are being dubbed "tax-evaders leagues." If there are leaders in this leagues who are tax evaders, they should be smoked out so that the people would know. Quite naturally the large taxpayers are the ones who are taking the lead in these leagues, but at the same time in checking up on delinquent taxes it has been found that in numbers there are perhaps more small property owners unable to pay their taxes than there are large ones. The question of equality of tax payment should be investigated by the tax leagues the

same as the reduction in the cost of government, local, state and national.

Alfalfa Bill Murray spoke at Amarillo Thursday night to a large audience. Many went to see Bill, expecting a vaudeville performance but instead they heard an able discussion of political problems. Bill Murray is no fool. He inclines to the spectacular for the purpose of gaining publicity. These stunts usually depreciate the value and worth of the performer. It is seldom that the public is willing to accept seriously the man who clowns his way to popularity. This is the fate of Bill, who has no chance at the Democratic nomination, regardless of his real worth.

The city administration promised before the election that after a study had been made of the city's business, expenses would be reduced. To top off \$477.50 per month indicates that the new administration knew what it was talking about when it said that expenses could be reduced. Most of the savings inaugurated by the commission will no doubt meet the approval of the citizens, although individuals will greatly feel the effect of the commission's reductions of expenses.

The rains of last week saved the wheat crop, or at least the part which had not been blown away. No one can tell exactly the percent of the crop which was lost by the unfavorable weather the past six weeks, but from all indications, those farmers who did not lose more than fifty percent of their crop may be money ahead. It is stated that Kansas has lost practically all of its wheat crop. Prices should be greatly benefitted by the reduction in the acreage.

Senator Pink Parrish of Lubbock visited here Friday. The big Senator from the South Plains is a candidate for Congressman-at-Large, place No. 1. Col. E. O. Thompson of Amarillo is running for place No. 2, and Mrs. Phebe K. Warner of Claude will file for place No. 3. The News announced several weeks ago in favor of all three of these candidates, and hopes that West Texans will stay with them.

The House of Representatives in Congress refused to lower their salaries. This is not going to put a very good taste in the mouths of the taxpayers when election time comes around this summer for those representatives who are voting to maintain the high cost of government when each and every individual taxpayer is on his back, and fighting to survive the storm of adversity.

Lynch Davidson, former lieutenant governor, and twice candidate for governor, finds himself in financial difficulty, and his business thrown in the hands of the receiver. Governor Sterling has fared practically the same lot. Charles Schwab, steel magnate, says there are no rich men left in the United States. The bigger they are, the harder they fell as a result of the depression.

No one is in favor of increasing taxes; all are in favor of reducing taxes, but a lot of foolish statements are being made as to the extent taxes may be lowered. No one wishes to see local, state or national governments less effective, and to cut their support to the point of crippling them and rendering them useless is worse than abolishing departments all together.

Hooley Long swings into action as a member of the Senate. Holding the spot light for so long in Louisiana, it was expected that he would soon arm himself with the big pop gun and fight a duel with the imaginary foe of the Senate. Incidentally, what has become of Economy Tom Blanton. We have not heard from him lately.

The rain made a lot of difference as to the feelings of the people of the country. There will be a fair wheat yield, in spite of

the continued dry weather and dust storms. If the price is anything reasonable, it will bring a lot of money to the farmers of the county.

Home-owners are complaining that children and young people are picking flowers without permission. Stealing is wrong, whether it be money or flowers. Taking flowers from homes, without permission, is petty thievery. It costs a lot of money, time and labor to raise flowers.

Great interest is being shown in the coming Cooking School of the News which will be held June 7-10. The merchants of Canyon are interested in the success of the School. The News will print a daily newspaper during the time the Cooking School is held.

You will not see much of the Newsman around Canyon the next three days. The Silver Anniversary of the Panhandle Press Association starts in Amarillo this afternoon and continues until Saturday, and we have business there.

There is a city ordinance against riding bicycles on the sidewalks. If there is no provision against scooters, there should be. These little contraptions are a lot of fun for the kids, but dangerous to the pedestrians.

Income taxes will be doubled by congress in the hope of raising

more money. The joke is going to be that few people will have any income to pay, and the rate will not hurt them this year.

Plant trees and flowers. A little water will not cost much, and will make Canyon more beautiful.

CHESTER LEE NEAL  
FUNERAL HELD SUNDAY

The funeral service for Chester Lee Neal, 49 years of age, was held Sunday at the Methodist Church in Happy, with Rev. Scott of the Baptist Church in charge.

Mr. Neal was a farmer, living near Ralph. He is survived by his wife, and four children, Miss Mary Neal, Joe Neal, Joy Neal and J. C.

Neal, three brothers and three sisters.

The pall bearers were Louis Harvey, Ed Harvey, Ralph Bratcher, Finis Brazil, H. G. Persons and Glen Dowlen. The funeral was in charge of the Grigg-Thompson Funeral Home.

### STUDENT TO OCCUPY PULPIT

#### METHODIST CHURCH SUNDAY

Rev. Edward Thompson, a freshman student in the college, will occupy the pulpit at the Canyon Methodist Church next Sunday night at 8 P. M. He was licensed to preach at the district conference held in Canyon last week. Many of the older students will remember his brother, Hubert Thompson, an ex-student who is now the Methodist pastor at Willadoro. Everyone is invited to attend this service.

### MISS MARY GRIFFITHS

#### WEDS RICHARD FRYE

A wedding of interest took place Saturday when Miss Mary Alice Griffiths of Canyon and Mr. Richard Frye of Dawn were married at Amarillo in the Lutheran chapel with the Rev. Mr. H. Freking, pastor of the church reading the vows. Only members of the immediate family witnessed the ceremony.

The bride is the daughter of White Griffiths of near Canyon. She is a graduate of Central High School of Fort Worth and did her college work at West Texas State Teachers College. For the past three years she has been connected with the public schools of Dawn. Mr. Frye is manager of the Farmers Elevator of Dawn where he has been located for several years.

The couple will take a honeymoon trip to Fort Worth and Carlsbad. They will be at home to their friends after May 15th at Dawn.

Those present at the ceremony Saturday were: Miss Pauline Griffiths, White Griffiths and Wayne Griffiths of Canyon, Mrs. Paul Frye of Amarillo and Mr. and Mrs. August Frye of Dawn.

### CHURCH OF CHRIST

Have you counted them? Only four more weeks until our meeting which will begin June 1st. Bro. Everett O'Dowd of Breckenridge, Texas, will do the preaching. He is a very capable young man, and we are certain that you will like him. Begin now to invite your friends and neighbors to attend every service. Each one bring one is the proper slogan. We are counting on you to make this meeting the most successful gospel meeting ever held in Canyon.

The services are as usual during each week: prayer meeting Wednesday evening at 8 o'clock. Ladies Bible class, Wednesday afternoon at 3 o'clock. Then on Sunday: Sunday School at 9:45 o'clock; preaching at 11 o'clock; communion at 11:45 o'clock; young people's class at 7:15 o'clock Sunday evening, and preaching at 8 o'clock.

The subject for preaching will be, morning: The Blessed Dorcas; and evening, Why Christians Should Not Dance, Number II. Come where all are welcome.

John O'Dowd,  
Local Minister.

### PRESBYTERIAN CHURCH

The following is the order of services for next Sabbath at the Presbyterian Church:

The Sabbath School opens at 9:45. Our usual attendance is fairly good, but let's make it better.

The regular congregational services will begin at eleven o'clock. Subject of the sermon: "Home Training, Cultural and Religious." The State Federation of Women's Clubs is endeavoring to bring this subject to the attention of all of our people; and churches, ministers and all others are asked to assist in this commendable undertaking.

The evening worship will be in charge of the Christian Endeavor Society. Miss Rosa Cash will lead the devotional services. Miss Charlton will speak on the subject: "The Religious work of Mexico."

### ST. PAUL'S LUTHERAN CHURCH

Five miles east of Canyon. Sunday School at 2:30 P. M. Services, German, at 3:30 P. M. Adult Bible Class meets Monday at 8 P. M. H. A. Stroebel, pastor.

### CARD OF THANKS

I wish to thank all the people who helped me win the first prize in the contest at the Canyon Supply.

Irene Leseberg.

### Wilson Items

Mr. and Mrs. John Buchanan were shopping in Amarillo Monday. They called at the Tuck home on their return.

Mr. Wolfe of Oklahoma was a recent business visitor in the community.

Jack Landress left Wednesday for his home in Fort Worth.

Mrs. Wortham has been very ill, but is reported improving.

Recent visitors were Mr. and Mrs. L. H. Holman with Mr. and Mrs. Grounds. Mrs. Tuck with Mrs. Wortham. Mrs. Wilmoth and Imogene and Mr. and Mrs. Jack McBroom in the Tuck home. Mr. and Mrs. B. H. Conner in the Geo. Wilmoth home. Miss Helen Tucker with Miss Evelyn Lain. The J. L. Brandt family and the L. Stewarts with Mr. and Mrs. John Buchanan. Mr. and Mrs. Fred Beckman and family, Mrs. L. Brandt, Mr. and Mrs. Jim Lain, Mr. and Mrs. John Batenhorst and daughter, Alfreda, and Mrs. L. Stewart in the J. L. Brandt home. Mr. and Mrs. Bill Neal with Mrs. Geo. Jones, Mr. Alfred Walker with Mr. and Mrs. Neal. Misses Helen Tuck-

er and Evelyn Lain visited Miss Gertrude Brandt.

Some of the pupils at school were delighted that Irene Leseberg was the winner of the bed room suite which was given away in Canyon Saturday.

A recent social event was a reception given by Mrs. Geo. Wilmoth. Little Imogene being named as honoree. A birthday occasion.

The average woman is pretty ingenious and it would be interesting to see just what she would do with a bald head if she got that way.

## The CONVENIENCE OF NORGE DOESN'T COST YOU A CENT

THE ROLLATOR

Because of superior insulation and simple, efficient mechanism, Norge Electric Refrigerator is very economical to use. So economical in fact, that it quickly pays for itself... its first cost soon comes back to you in saving of ice and foods. So that the marvelous convenience of having constant, dependable, year round refrigeration actually costs you nothing.

But—

Remember that Norge economies are the result of Norge features—many of them exclusive with Norge. The Rollator, for example... the simplest cooling mechanism known to electric refrigeration... only three moving parts which are practically everlasting.

When you are ready to equip your home with electric refrigeration, be sure you see the Norge before you buy.

The Norge is manufactured by Norge Corporation, Detroit, a Division of Borg-Warner, one of the world's largest makers of automotive parts, including free wheeling.

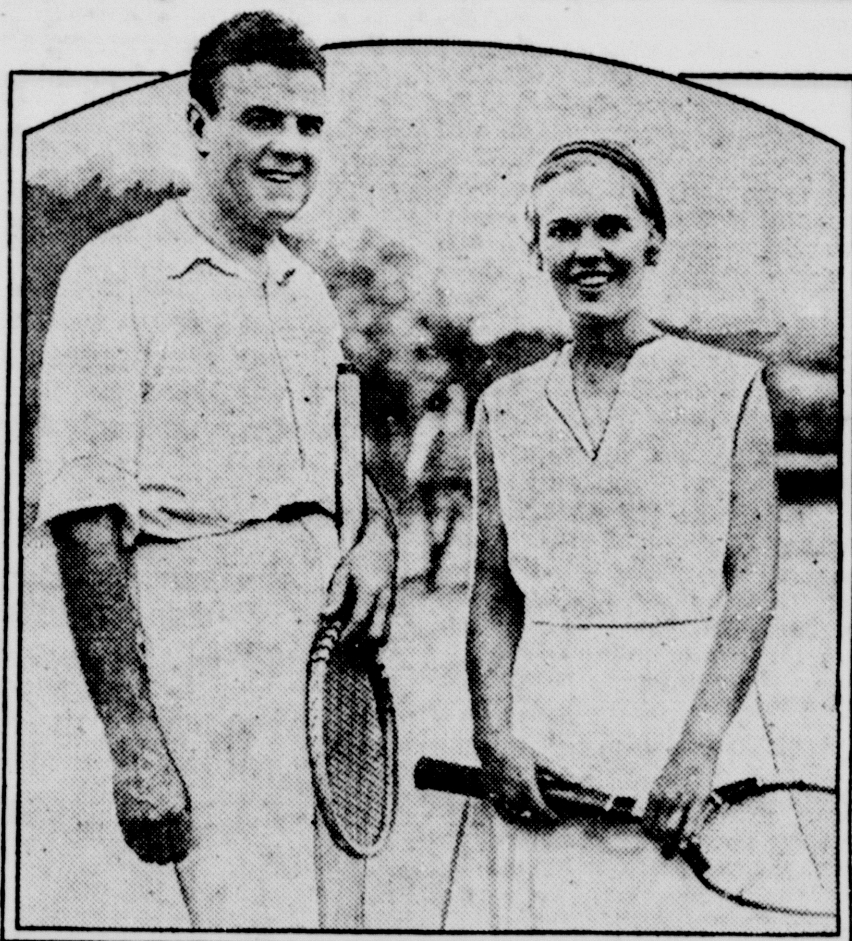

The Waterpump shown in the model illustrated in this advertisement is extra equipment.

## Yo! Ho! For a Lotta Run

In 1928, a 16-year-old high school girl startled the track world by her sprints in that year's Olympic games. She was Betty Robinson. Last year, however, she was severely injured in a plane crash and doctors despaired of her recovery. But Betty fooled 'em. She's shown working out at Northwestern University, Chicago, where she is a co-ed, in hopes of regaining her old form and entering the 1932 Olympics.

## Plainview to Hold Pioneer Round-Up

This annual gathering of pioneers of Hale County and the Plains will open at four o'clock Saturday afternoon, May 21st, with a parade in which cowboys, chuckwagons, covered wagons, top buggies, buckboards, wagon and many old-time features will be displayed. All of the pioneers will ride in the parade.

From five o'clock until eight there will be an informal meeting and visiting of old friends, registration, special features, and during this time chuck will be served from the chuck-wagon to all present.

Among the special features will be a style show of old customs, a display of old photographs of well known pioneers taken in the long ago, and a museum. The old photo display was introduced last year and was declared by some of the old-timers to be the best part of the Round-Up. The museum is a new feature to be introduced this year and will be made up of antiques and relics loaned for the occasion.

"A Pioneers Christmas," a short play written by a pioneer woman of Plainview will be one of the features of the program. The stage will be arranged to depict a pioneer's home in the early nineties and a scene of early life will be presented. There will be singing, fiddling, and the usual entertainment.

A square dance will follow the program, and all who wish may participate. An admission fee of twenty-five cents will cover all the features of the Round-Up, the supper, visiting hour, photo show, the museum, program and the square dance.

This is the Fourth Annual gathering of the pioneers to be held in Plainview and is sponsored each year by the Business and Professional Women's club, and each year it is growing in interest and attendance.

An invitation is extended to the pioneers and other interested in Randall County to attend the Round-Up.

## L. N. George Says—

THE MUSEUM BUILDING MUST BE ERECTED THIS FALL. This has been said by others several times but can we say it too many times? Is every reader of the Canyon News convinced that we, the folks here in Canyon must act and act right now? Have we, the W. T. ex-students, done all we can? Suppose that we have a local round up and talk things over. Come to the College Cafeteria next Saturday at noon. There is plenty to do for every W. T. ex in Canyon who is willing to work. So come out and help put a load on those who are not there. Remember Saturday at noon, College Cafeteria. You pay for what you want to eat.

**CARD OF THANKS.**  
We wish to thank our many neighbors and friends for the kindness during the illness and death of our husband and father, and for the many kind thoughts and words that have been spoken. Also for the beautiful flowers.

## Thundering Herd Bows to Bull Fighters, 13-6, in Pre-Season Grid Battle Saturday Night

**Tech Matadors Bring Four Complete Teams To Vanquish Local Squad in Game Under Buffalo Field Floodlights.**

The Spring football training camp, at the West Texas State Teachers College, came to an end Saturday night, after the Buffaloes had engaged the Texas Technological College Matadors in a spring football game, with the Thundering Herd bowing to the Bull Fighters, a tune of 13 to 6, before a crowd of about 400 football fans.

This football game brings to close the rivalry between these two schools until the season of 1933 at the least and maybe longer. The battle was waged due to the fact that Coaches Burton of the Herd and Cawthon of the Matadors were unable to get together on a suitable date for this coming fall's football season.

But what of it, a real football game was presented, although the Buffaloes did go down in a defeat, but by a small margin. By the time the fall training camp opens every Buffalo will be ready to go in grand style for their 1932 march.

### Buff's Receive

In the game Saturday night Captain Bill McClendon won the toss over Tech's captain and the Buffaloes received the ball on the kick-off and began their offensive drive, right at the beginning, but soon gave way to the strong defense of the Matadors. There was an exchange of punts with fumbles netted in on both sides, but the Matadors won the advantage and gained possession of the ball. Soon afterwards the first touchdown was carried over. The extra point failed.

The Buffaloes received the ball on the kick-off for the second time but were unable to make much headway against the constant substitution of the Tech crew. The Matadors soon got loose for the second touchdown, holding the Buffaloes with a gainage of 41 yards for the first half.

### Second Stanza

The second half of the game was played on a more even basis, however, at the very beginning Tech appeared as if they were going to run wild, but the Bison Boys soon put a check to their advance, although, Tech carried the ball the length of the field on one instance within four downs.

The third quarter came to a close with both teams fighting on about even breaks, with Tech probably on the offense, but no score was pushed over the Buffaloes.

In the fourth quarter the Buffaloes made their only score when Burk, playing at quarterback, passed about 45 yards to Fowler, who was playing end, and was within stepping distance of the goal, when he reached up and snatched a pass

from the air and stepped across the goal line with the whole Tech team on him. The exact distance from where the ball was put into play was 30 yards, but of course the passer ran back, which made the actual passing distance about 40 to 45 yards. The trial for extra point, by way of another pass, failed.

Neither team was able to gain much from this time on, however, Tech carried the ball the majority of the remaining period.

As to the individual sensational playing there was but little, due to the fact that the entire team was playing together. The backfield men, as a whole, were forced to get most of the tackles during the first half, but the line settled down in the remaining two quarters.

### 'Cow' Carries Mail

"Cow" Williams is undoubtedly one of our best football stars, he can carry the ball, do outstanding tackling because when he hits a man it's just stop, and when necessary he can kick the heck out of the ball on punts.

John Walker will develop into a real football punter before the 1932 season is over. John's longest punt not counting the roll was 45 yards. He is going to be a real line man too.

Davis, Brotherton, Burke, Spence, and Morgan all performed well in the backfield for the first time. The substitutes helped carry on their work in fair style also.

Captain Bill McClendon's work was all right, but he will do a lot better during the regular season. Bill will make the all T. I. A. A. next year without a doubt.

All in all every man was fairly doing his part, although, in reality a practice game, a real football battle was staged between the two teams. No one could make any estimation as to the promises of the success of the teams for this fall, yet, both will improve considerably.

A look at the summary will show that Tech did hand the Buffaloes a good sound beating, carrying the ball over four times the distance of the Herd, but there will be much room for improvements on both sides.

### Summary Buffalo-Tech Game

**Buffaloes:**  
On 51 plays gained 113 yards, including 50 from passes, lost 23. Punted: 12 for average 34. Passed: 6, 3 complete for 50 yards, two intercepted, 1 incomplete. Fumbled: Three, lost one, recovered two.

## Composer Takes to the Air

The first American woman composer to have a grand opera produced, Mary Carr Moore of Los Angeles, recently took to the air in an amphibian plane piloted by her son, Lieutenant D. C. Moore, to fly to Washington, D. C. She made the trip to receive the National League of Penwomen's first prize for her composition of a suite for voice and small orchestra. She is seen here with her son immediately after the plane trip.

### Umbarger Items

Raymond Batenhorst celebrated his eighteenth birthday on Sunday evening May 1st. Raymond is a very popular young man and has endeared himself to a wide circle of friends in this community. His many friends entertained him with a delightful evening party, music, dancing, followed by refreshments and the pleasing excitement of some lovely gifts and presents. We congratulate Raymond and wish him many more happy and joyous birthdays.

A large number of friends attended the party given at the home of Mr. and Mrs. Joe Friemel Sunday, all reported a good time.

Joe Wick spent the week-end with his parents Mr. and Mrs. Louis Wick.

Mr. and Mrs. Elzie White and son Edward went to Canyon Saturday.

John Wick spent Sunday with Alfred Friemel.

Joe Friemel and John Shanne-

berger were business callers in Canyon Saturday.

Misses Hilda and Pauline Friemel visited at the home of Miss Elizabeth Wick.

Mr. and Mrs. Herbert Friemel and Mr. L. J. Wick made a business trip to Amarillo Sunday.

John Batenhorst and Anton Hartman visited Mr. and Mrs. Louis Wick Sunday.

John G. Batenhorst was a business visitor in our school Friday morning.

### Jowell Items

The weather continues cloudy and windy, the rain of last week was very much appreciated by all, the wheat in this community is looking fine.

Quite a number of folks of this community spent the day in Canyon Saturday, it being Canyon's Trades Day and play day for the school children.

Mr. and Mrs. W. H. Bailey and children and Mrs. J. R. Bailey of Amarillo visited Sunday with Mr. and Mrs. Earl Davis.

Mrs. L. A. Glenn and daughter Ruth, visited last week at the W. T. Glenn home at Arney.

Mr. and Mrs. T. B. Cox and children visited at the A. L. Glenn home Sunday.

Frank Davis motored to Shamrock Monday, his mother, Mrs. J. E. Davis accompanied him home Tuesday.

Mr. and Mrs. Bill Sims were in Amarillo Sunday.

### CARD OF THANKS

We wish to thank the many friends for their kindness and beautiful floral offerings in the death of our beloved husband and mother. We wish to especially thank the American Legion for their wonderful assistance.

Mrs. Walter J. Hess and his sister and brothers.

### Organizations of College Give to Fund for Museum

The organizations of W. T. our dear old Alma Mater, are still responding whole - heartedly to the S. O. S. for funds to match the money set aside for the museum building by the State Legislature. It is a well-known fact that if we don't raise as much money as they set aside for the museum we can not have any of the money that they appropriated. In the last week four societies have contributed to the cause. They are: The Cousin-Sesame Literary Society, The Library Club, The Senior Class of 1928, and the Senior Class of 1929.

Mr. Sheffy expresses his appreciation, along with the rest of us, of the gifts given by these societies. Keep It Up!

### Girls' Volley Ball Tournament Is Won By Wilson Team

The volley ball tournament, held here Monday, Tuesday, and Wednesday proved most interesting. Wilson's team winning every game. Monday evening Wilson's team played Johnson's team, Wilson's winning three games. Tuesday, Wilson's team played Shaw's High School team and Wilson's was again victorious. Wilson's and Shaw's team played again Wednesday but Wilson's was again the winner.

The all college volley ball team will be taken from those playing in the tournament.

### TO THE PEOPLE OF NORTH-WEST TEXAS:

We, the undersigned members of the Board of Directors of the Panhandle-Plains Historical Society, desire to call your attention to what we believe is one of the most important projects ever undertaken in this part of the state. It should appeal to every old-timer because it proposes to erect a monument to him and to the best qualities of character for which he stood. Moreover, it seeks to preserve and hand on down to succeeding generations the traditions, the ideals, and the fast disappearing evidences of pioneer life in this territory—a life that is replete with courage, honesty, sacrifice, loyalty, and such other noble qualities as have entered into all great civilizations. It should appeal to all who are enjoying the fruits of the labors of those who blazed the trail for present day opportunities and blessings. If we of today are an ungrateful people we are unworthy of our heritage. Gratitude is one of the noblest of virtues—ingratitude one of the basest of vices.

The Forty-first Legislature appropriated \$25,000 to be used in the erection of a museum building in Canyon on the condition that an equal sum would be raised by private subscription. About \$19,000 has been raised. We are now inaugurating a finish campaign for the remainder. It must be in our hands by July 1, so that plans can be drawn and contracts let before September 1st. Three or four counties have done nobly. A few individuals all over the territory have given sacrificially. Many who should give liberally have done nothing. We appeal to every patriotic citizen in the Panhandle to join us in this great enterprise for its blessings will flow down the years. We already have on hand in the college at Canyon one

of the most valuable collections in the Southwest and hundreds of people from all over the nation are visiting it monthly—school children, old timers, college students, research workers, scientists—all enthusiastic about it and its possibilities. Much more material is awaiting in hazardous places, the erection of a fire-proof building.

Professor L. F. Sheffy of Canyon is our authorized agent and to him all subscriptions should be sent. He will receipt and deposit in bonded depositories, so that there is no danger of loss of funds. Don't wait to be called upon. The campaign must be hurried. The largest subscription to date is \$1,000; the smallest is \$1.00. Make yours as large as possible, but make it.

April 30, 1932.

### College Orchestra Is on Program at Canadian Tuesday

Under the direction of Mr. Wallace R. Clark, some members of the W. T. S. T. C. orchestra performed on the Fine Arts program of the Texas Federation of Women's Clubs at Canadian on April 23. Beginning at noon, the orchestra opened the program with an overture, and was closed with a group of short numbers by the orchestra.

Miss Pauline Brigham appeared on the program as accompanist. Mrs. J. D. Turk, soprano of Ama-

rillo, who sang a group of Miss Brigham's own compositions. Mr. Clark addressed a meeting of ex-students of Hemphill at which Mr. Fermin Sawyer, superintendent of schools of Canadian, presided. This address came after the Fine Arts program.

Eleven members of the College orchestra were selected and taken to Canadian to be in the program. The personnel included: Wallace R. Clark, conductor and flute player; Hershell Coffee, and Roy Wallerstein, first violin; Oscar Croson, second violin; Miss Pauline Brigham, viola; Mrs. Hershell Coffee, cello; Mr. Strain, clarinet; Martha Strain, horn; Charles Strain, trumpet; William Strain, trombone; and Miss Hazel Allen, pianist.

## Local Student Wins Second in Essay Contest

Miss Nadine Lain, a senior in Canyon High School, won second place with her essay on "Why We Celebrate Armistice" in the state contest sponsored by the American Legion Auxiliary.

Miss Lain received a \$1.50 local prize and a \$5.00 state prize on her theme.

The following letter of congratulation was sent her:

Dear Miss Lain:

I wish to supplement the very fine message of Miss Scotten by saying it gives me great pleasure to sign the check that accompanies this letter and to assure you that the Texas Department American Auxiliary is indeed appreciative of the fine piece of work you did in working into an essay the fine points on why we celebrate the signing of the Armistice that meant the end of the World War.

Your essay will become a part of the minutes of the Texas Department Convention of the American Legion Auxiliary held in Corpus Christi, Aug. 1, 2, and 3, 1932, and be printed as a part of the history of this great organization. Again I congratulate you.

Most sincerely yours,

Jessie Stewart,

Mrs. Van W. Stewart,

Dept. President.

## Clubs

S. P. Q. R.

The Latin Club has been one of the most active clubs of the school. At the beginning of the school year, the club elected Jean Burgess, president; Jewell Chambers, vice-president; Thelma Bryant, secretary-treasurer; Ruby Foster, reporter; and Gladys Kendrix, Pat Cochran, and Juanita Hendrix, program committee. These officers have served efficiently the entire school term.

On February 19, the club sponsored a chapel program. The program included a play "Ira Nympharum," two piano solos and a dance.

The club sent two delegates to the annual Latin tournament held in Amarillo, April 8. Fredda Charles Bill's essay, "Public Utilities in Rome," won third place in the district.

For the annual exhibit, the Latin Club is placing on exhibition carvings of statues, monuments, viaducts and house plans. Clever posters showing English derivatives from Latin words, and a Roman camp will be shown.

More success for S. P. Q. R. in years to come!

### "Stitch and Sizzle"

The Home Ec. Club feels as if it had accomplished many important things this year. The club girls have planned and prepared two banquets. One for the football boys and one for a group of dairymen. We have entertained ourselves with a buffet supper, a picnic, and four teas. During the first part of the year personal grooming was discussed which included: Care of the hair, face, hands, fingernails, feet, and body. Make-up, types of clothes, colors, and color combinations for the different types of girl in figure, complexion, disposition, manner and etc., were discussed.

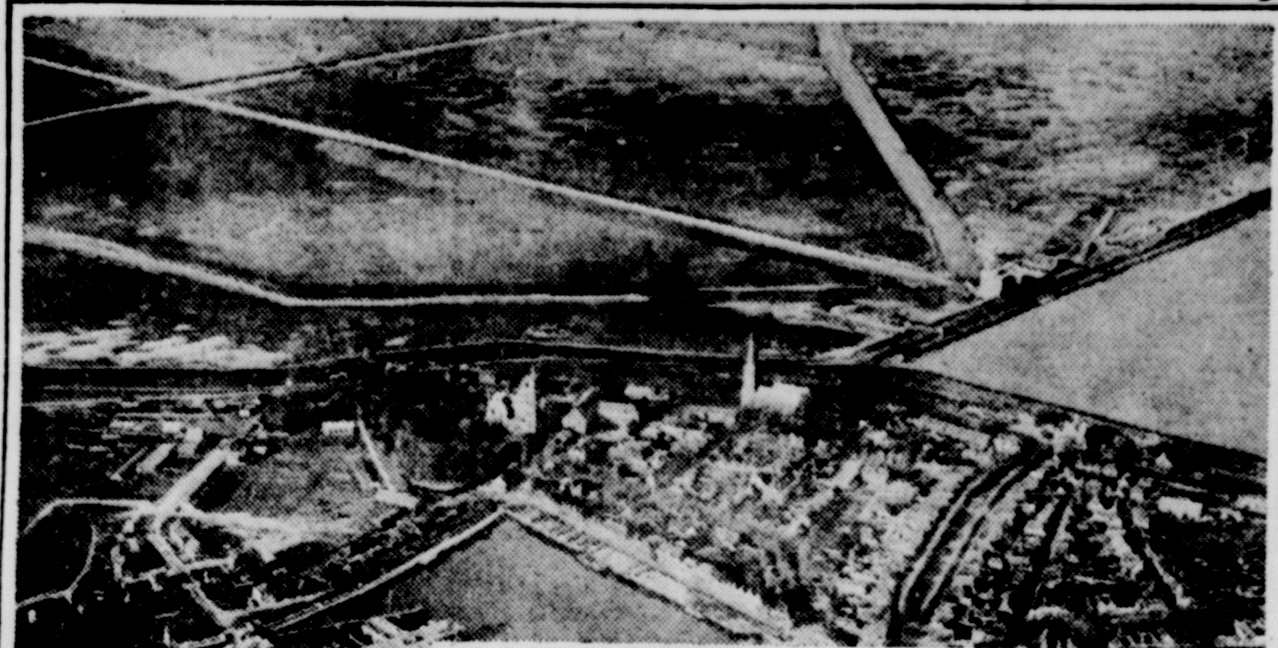

Demonstrations were given on the making of waste baskets, pillows, doorstops, pin cushions, handkerchief holders, and many other useful articles. The members of the club will certainly regret losing our instructor, Mrs. Brady, who will be in Sayre, Oklahoma, the coming year.

### VACCINATION IS COMPULSORY

As there have been several people in school, as well as in the town who have become ill from smallpox, vaccinations have become necessary to those who attend school. A class check has been taken of each high school student, while the pupils of the grade school have been examined and vaccinated by doctors who came to the school Friday.

Our most valuable lessons are generally acquired through our most unfortunate experiences.

## Drainage of Historic Zuyder Zee, to Create Dutch Farms, Well Under Way

Some of the arable land reclaimed from the Zuyder Zee may be seen in the airplane view above. This land lies south of the Island of Wieringen and is known as the Wieringen polder. The town of Medenblik is shown in the foreground. At right is a map showing how the Zuyder Zee is being drained. The huge embankment from Wieringen to Ploaam keeps the sea out. The North Sea canal will carry off the water. The four polders to be reclaimed are shown with heavy borders.

LITTLE by little Hollanders are making Dat Ole Debbil Sea disgorge land it swallowed in one ruthless gulp long ago. They are draining the romantic Zuyder Zee to produce much needed new land for Dutch farmers.

Plans for this great reclamation project, calculated to restore to Holland acreage equal to the size of Rhode Island, and one of the most ambitious engineering jobs ever undertaken, originated in 1849.

Holland's historic inland sea, the Zuyder Zee, was formed when a terrible flood centuries ago swept through her dikes and flooded the country, taking thousands of lives. That its reclamation eventually would be necessary, has been recognized for many years, but plans made little headway until the advent of circumstances which arose early this century.

The great influx of refugees to neutral Holland during war days accentuated the need for more land. A need, incidentally, that became

increasingly compelling as Holland's farms grew smaller because of the mechanics of the law of inheritance, of mortgage foreclosure and sheriff sales.

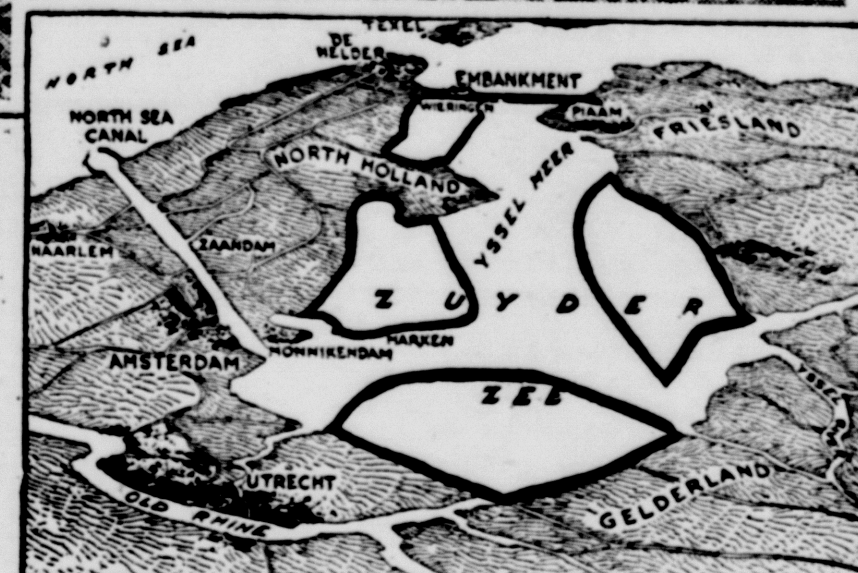

Both wise and expedient, the Dutch realized. They knew that new polders would sell readily. Had not the whole Haarlemmermeer polder (reclaimed area) sold out completely in less than two years?

Likewise, the great amounts of money being expended on heavy rentals and interest charges would, Hollanders were convinced, be diverted to acquisition of land in newly drained regions. Further, the extreme fertility of new bottom lands would eliminate the need for importation of fertilizer, a costly item. And, since drainage would make necessary shorter dikes to hem in the Zee, there would be considerable economy in maintenance of the dike system.

These and other factors accelerated action on the proposed reclamation scheme until, in 1920, the work started.

The project, many phases of which are complete, was launched with the construction of a huge dike running from the north Holland coast to the island of Wieringen. Then began the extension of this dike about 20 miles to Ploaam on the opposite Friesland shore, to shut out the North Sea.

Early in 1930—to continue for some years to come—the drainage of the Zee began. When the work has been completed, four polders, aggregating 900 square miles, will have been added to Holland's lands. The Zuyder Zee will not be dried up entirely since, in addition to new land, there is dire need for a fresh water lake. And for this purpose, about 450 square miles of the Zee will remain under water, to form the lake already named Lake Yssel.

## School Exhibit Is Successful; Many Visitors

The school exhibit held Friday evening between 7:00 and 10:00 o'clock at the high school was a success.

Supt. Irby B. Carruth stated that he was well pleased with the exhibit and the large number of patrons present, but that in the future he hoped to have more parents view the school exhibit because the community cannot know the grade of work that is being done in a school unless it sees the work first hand. It is therefore necessary that all of the parents come and see the work that the students in the Canyon Public Schools accomplish during the year.

The program preceding the exhibit was presented in the grade school gym to a packed house. It was given by the first, second, third, and fourth grades and the girls Physical Education class of the high school.

The hiking time of the year is here. Perhaps some of us have forgotten how much real fun can be had on a hike. Although we may have a few freckles and blisters for souvenirs, the fresh air is worth them.

Most of us spend Sunday evening in a show. Next Sunday let's don our old clothes and see the canyons. Soon it will be too hot to hike in comfort. Everything is green and fresh now.

Let's start the summer right and hike.

THE two strongest links in the chain of any man's program of progress must be his thrift and his industry. If he is industrious he will earn the means with which to save consistently and persistently. And as his industry develops more ambitious efforts in investments or going into business for himself his savings will be the means for carrying out his progressiveness.

## CANYON SCHOOL EXHIBIT SHOWS HOW YOUNGSTERS TODAY WORK, LEARN DURING SCHOOL TERM

If Grandpa and Grandma, worked hard on readin', ritin' and 'rith-metic, young Mary and Johnny work even harder on English, History and Mathematics was the verdict of the majority who viewed the unusually attractive exhibit of the Canyon Public Schools last Friday evening.

The work displayed was in many instances more than excellent; the displays were well planned and the evidences were many that both students and teachers have spent a very attractive and profitable school year. Nor has everything been work in the popular conception of the term, but the course of study has been in the nature of projects that mean something accomplished, something learned when they were completed.

It was a most interesting exhibit, planned by the students themselves under the direction of the various teachers, and it was interesting not only to parents and those vitally concerned with the welfare of the school, but to outsiders as well.

Students in the English department of the high school prepared many interesting notebooks but perhaps of greater interest to those who viewed the exhibit was the miniature Shakespearean theater that was used during the study of the plays of Shakespeare. Members of other classes become authors and illustrators by writing their own short stories and illustrating them with pen drawings and clipped sketches.

History held its own in the exhibit with maps, many of them, attractively displayed on the walls. This department has done excellent work the past year.

It remained for the students in the mathematics department to think up difficult things to do. The walls were covered with cleverly executed geometric designs accompanied by explanations of the relations of these designs to everyday objects.

Students in the department of biology, general science and physiology, prepared notebooks on plant science, which takes up chemistry, and animal life and arranged an interesting exhibit showing some of the experiments made in the various classes.

Unusually clever were the soap carvings done by the students in the latin classes. These sculptured

objects depicted old Roman buildings, and cities. Odd drawings showing the derivations of various English words were also made by the students. The Spanish classes prepared notebooks showing the relation of the Spanish language to the English language, pointing out the importance of the Southern tongue in this locality.

The classes in Agriculture have gotten away from routine work much of the time and the students have made trips to farms and dairies thereby learning first hand the knowledge that is important to all who intended to take up agriculture as a business.

Budding journalists and statesmen had ample opportunity to express their talents in the civics and economics classes. Miniature newspapers were written by the students and many ingenious drawings were made showing governmental plans from the smallest municipality to national cabinets.

Perhaps some of the most interesting classes in high school are held in the department of practical arts which take up manual training and mechanical drawing for the boys, foods and sewing classes for the girls.

More than fifty boys are enrolled in the manual training classes and have shown much talent in the classes in wood crafts. The first year classes have made foot stools, book racks, medicine cabinets and the like, while those in the second year classes have made many lovely pieces in cedar chests, library tables and larger pieces of furniture.

The work taken up in the classes in mechanical drawing forms a basis for architectural drawing.

The boys in this department have effected a great saving by making their own equipment, special desks and chairs. This class is open to Juniors and Seniors only.

The girls in the sewing classes have made practical garments for every member of the family and have made many modish and practical frocks for themselves. Quilt tops, articles for the home, and fancy work has also found a place and the exhibit planned in this department was a creditable one to student and teacher alike.

An idea in economy was developed in the foods classes. The students learned not only how to cook plain everyday foods and pas-

tries, but they took a course in canning, each girl bringing her own raw products and taking the canned foods home for use on the family table. The practical value of such a course is evident, and the student was at no expense to learn the work.

Judging from the posters and notebooks displayed by the various classes in the grade school, the students have been very busy and have accomplished much during the school term. Excellent notebooks have been prepared in the difficult subject of reading, in geography, mathematics, history and grammar classes and the students have proudly exhibited their work for others to see.

The tiny tots in the first, second and third grades have been busy in poster and building work. One of the most interesting parts of the exhibit was the furniture made by first grade pupils. They have made tables, chairs, doll beds and even a tiny dressing table with mirror and chair complete.

To be sure Grandpa and Grandma would have had to work hard to keep up with these modern youngsters!

### CANYON CITY CLUB NEWS

The back nine now has the sand on the greens and eighteen holes of golf is a reality; the next League game will be played over the entire eighteen holes, against Happy, next Sunday at 1:30 p. m.

Grady Oldham is getting back on his game; Grady shot a 35 last week and just luck will not get a score like that.

In the playoff between Hartman and Devault, to determine which would make the team for our match against Happy, Hartman shot a 73, defeating Devault who turned in an 83.

"Players who have holed out should not try their putts over again when other players are following them."

"Players looking for a lost ball should allow the other matches coming up to pass them; they should signal to the players following them to pass, and having given such a signal, they should not continue their play until those players have passed and are out of reach."

Four pairs of Mallards so tame that one could get within a few steps of them, were observed on the creek Sunday; it is hoped that no one will throw stones or sticks at them, or walk so close as to make them fly.

Mrs. C. W. Warwick has received notice and invitation from Wichita Falls of the Spring Tournament, all women who can attend are asked to see Mrs. Warwick.

The women have announced their intention to hold a Club tournament May 15th, at 1:30 p. m. Eighteen holes will be played by those wishing to enter that length match and another match of nine holes will be played for those wishing the shorter route; medal play will determine the winner.

#### Monday Night's Fire

About 9:30 P. M., Monday fire was discovered by some passerby in the rear end of the S. V. Gentry store and in a few minutes one or two hundred citizens were doing their level best to save adjacent property. The Gentry stock of goods and the house, which was owned by R. B. Redfern, as well as the Garrison & Harrison office building were totally consumed and the other buildings, the Abbott & Hall office north of the Gentry store and the old Supply corner, were only saved by heroic effort. Mr. Gentry estimates his loss at \$3,000. It is fully covered by insurance.

R. B. Redfern, owning the store in which Gentry did business, had no insurance.

Garrison & Harrison lost their house only, the furniture being carried out. They had \$500 insurance, which almost meets the loss.

Geo. L. Abbott bought the C. I. Montgomery residence north of the Victoria at \$1,500.

LOST—One blue and red Indian shawl. Please return to T. H. Rowan and receive reward.

Mrs. Jasper N. Haney will leave today on a visit to her married children at Weatherford.

O. E. Thomas, of Dallas County, came in yesterday on a visit to his sister, Mrs. Gordon-Cummings.

BORN—Two births Monday, one boy weighing 9 1/2 lbs. for Mr. and Mrs. Tom Dowlen, and a boy pulling the scales at 10 1/2 lbs., for Sheriff Slover and wife.

Miss Hannah Robeson, who has been to Dallas for treatment, returned home Sunday much improved in health.

Robert Bates returned recently from a trip to California bringing back with him a wife, formerly Miss Goula Wann, of Ceta.

### Wayside Items

Strong winds from the south nearly all day Monday. Dust obscured the sun, air is filled with it.

Union revival of Baptist and Methodist began Sunday. Rev. Lindley preaching first day and night. Rev. Plant taking the second and continuing in the same order. We ask the co-operation of the neighborhood and trust we may have a great meeting.

The Swisher county convention met at Wayside Sunday afternoon. We enjoyed the singing very much. Good crowd in attendance, quite a few from different places. Strong wind from south most of the day Monday, dust obscured the sun to a great extent.

W. C. McGehee and wife made a trip to Amarillo Monday. J. C. Payne made a trip to Dalhart Friday, returning Saturday.

Mr. and Mrs. Hartwick have signed up for a school at Alexandria, Swisher county.

Rev. J. R. Plant is suffering with

rheumatism; has been for some days. Not much improvement.

Wayside juniors entertained the junior class of Happy Friday afternoon at 3 o'clock.

### Zita Breezes

Next Saturday there will be a meeting of the P. T. A. This is an important meeting. A number of people are getting a play prepared, entitled, "Come Out of It. If you all will come, I'm sure you will find your time fully paid."

Mr. and Mrs. W. T. Duncan spent Sunday with Mr. and Mrs. J. P. Upchurch.

Mrs. L. J. Fulton's brother and

his wife are visiting the family from California.

Bailey McCormick returned from near Alpine where he carried his wife to be with her father who was quite ill. She stayed to be with him a while longer.

Mrs. O. A. May visited with Mrs. H. R. Fulton Wednesday evening.

The school children are preparing their last school program. Bring a friend and everybody come.

## Grasshoppers May Be Menace This Summer

Strong possibility of a general infestation of grasshoppers equal in intensity to that of 1923 for all of Texas except the eastern portion is indicated in a letter received by W. H. Upchurch, county agent, from R. R. Reppert, entomologist of the Texas A. & M. College Extension Service. "Following the recent warm rains eggs are hatching and small grasshoppers appearing," he says, "and as soon as infested areas are located the immediate application of control measures may save later damage. Places to be watched are sloping pasture land and areas next to ditches, creeks, grassy fence rows, and along fences and lines of outcropping rock ledges."

Poison bran mash has been highly successful in fighting grasshoppers and this has become the standard control measure, the county agent states. The formula he gives consists of 25 pounds coarse wheat bran, 1 pound Paris green or white arsenic, 1 ounce of high grade amyl acetate (avoid cheap grades of banana oil or bronzing liquids), 2 quarts cane or sorghum molasses, 1 pound common salt, and enough water to make a moist mash.

"Mix the bran and poison together thoroughly. Dilute the amyl acetate and molasses in about 2 gallons of water. Pour this liquid over the mixture of poison and brand until every particle is moist. Make further additions of water and mix thoroughly until a mash is obtained that is quite moist, yet will fall apart after being tightly squeezed. In this form it will broadcast easily."

"This quantity should cover about 5 acres. A good practice is to mix at night and sow in the morning before nine o'clock. To kill hoppers in grass land sow over the entire acreage to be protected. Where they are migrating from fence rows or pastures into cultivated crops, sow the fence row or a fairly broad margin of pasture, and also a broad margin of the cultivated crop to be protected."

"If amyl acetate cannot be obtained substitute 6 lemons for 1 ounce of the former. Both juice and rind should be used, the rind being ground in a fine food chopper. The lemons should be diluted with water the same as the amyl acetate."

"In sowing, mash should not be placed in piles. Lead arsenate is valueless for grasshopper poisoning. This same poison bran may be used to poison cut worms when they begin working on top of the ground in gardens."

## Shoulders Will Be Covered This Summer

BEAUTIFUL MATERIALS, FITTED SKIRTS WITH FLARING FLOUNCES, FITTED JACKETS ARE SOME FEATURES OF 1932 STYLES

BY HARRIET

KEEP your shoulders covered this summer, when you are picking and wearing your party dress, or dresses.

Especially if you are a young thing, you can have the cutest dancing and dining clothes you've ever seen this year.

Materials are beautiful, and you can use anything from the most expensive peau d'ange to the most inexpensive printed voiles and feel quite in the swim. As a matter of fact, cotton party dresses are the last word in style.

Necklines should be party-ish, but not too low. But the day of just a strap over the shoulders is suspended for this year at least. You need epaulets, small cap sleeves, little flaring pleated ruffles, dropped puffs or some other tricky something to cover the top part of your arm. It's a year for wide shoulders and fancy ones.

Practically all party dresses cling close to the waistline.

SKIRTS may do about as they please, just so they show how slender your hips really are. Some fitted skirts flare from the knees down. Others have circular flounces that flare in pert manner. Organ-dies do this and some of the eyelet embroideries and the stiffer silks, such as taffetas. Slinky satin may have pleated flounces and one pale pink creation, with short, high puffed sleeves and a high-waisted line has two cute little pleated ruffles outlining the bottom of the ankle length skirt, giving it a quaint look that is demure and young.

Whatever your dress, do have some kind of a jacket to go with it. No dress stands alone this year. And when it comes to jackets, a half-yard of material can do the trick.

Fitted jackets are a little more mature and better for older women. One of the cutest of sophisticated jackets, one that tops a stunning white peau d'ange evening dress, has its shoulders slit to let twists of the white material make epaulets. The coat is quite military in appearance, to go with this

At left is a multi-colored floral print which may be worn with an abbreviated jacket of chiffon velvet that matches the sash. A stunning jacket is the one shown at right, which tops a white peau d'ange evening dress. Note the slit shoulders through which twists of the white material appear, resembling epaulets.

effect, pointing down in the back like a monkey jacket. The sleeves are tight and long.

For the girl who wants just a little velvet throw or a cape of velvet with no sleeves in it for evening, the trick is to have a dress with capped shoulders. A lovely example of this is a multi-colored

print, all kinds of lovely pinks, blues, yellows and greens against a white background. It has a V neckline, front and back, and caps of the material cut right in the bodice of the waist. There is a sash of velvet, in pink, that has bows in the back. And the little jacket is of the same pink.

## West Texas Wins Two Firsts, Several Seconds at T. I. P. A. Annual Convention at Denton

Blythe Wins First with Editorial, Baber with Serious Short Story; Le Mirage Is Second in Yearbook Contest.

West Texas State Teachers College carried off two first places, both prizes of five dollars in gold, in the annual contests sponsored by the T. I. P. A. First place in the editorial division was won by Dee C. Blythe, editor of The Prairie, and first place in the serious short story division was won by Lois Baber with her story "Outcasts." Miss Baber, from Wichita Falls, is a junior in the College.

This college also received mention for second places in sports story, annual contest, and humorous short story.

Simmons University won the majority of places, with North Texas State Teachers College running a close second. Prizes as announced at the annual banquet by Sally Mary Campbell, vice-president of the association were as follows for the fourteen contests. In the annual division, The Yucca of North Texas State Teachers College was awarded first place and a silver loving cup donated by the Southwestern Engraving Company, and the 1931 Le Mirage of Canyon won second. The Campus Chat, also of N. T. S. T. C. won first in the newspaper division Class B and was awarded a silver loving cup donated by the Denton Rotary Club. Simmons University Brand won first in Class A of the same division and received a loving cup donated by the same organization. Texas College of Arts and Industries won second place in the Class B newspaper division. A prize of five dollars in gold was awarded to Simmons University for first place in the news article division. N. T. S. T. C. received second place. A prize of the same amount was given to Simmons University in the sports story division and N. T. S. T. C. and W. T. tied for second place.

### W. T. Wins Honors

W. T. received first place in the editorial division with Simmons University second. The Avesta of N. T. S. T. C. received the prize of ten dollars in gold in the literary magazine contest and Simmons University Corgal won second place. Simmons University won first place and a prize of five dollars in gold in the feature story contest and Sul Ross and N. T. S. T. C. tied for second place. The poetry division was won by Sul Ross, first, and N. T. S. T. C., second. The formal essay division carrying a prize of ten dollars was won by McMurry for first place and Wichita Falls Junior College second place. Simmons University received first place in the advertisement contest and N. T. S. T. C. received second place. N. T. S. T. C. won unanimous first place in the one-act play contest. The familiar essay first place was awarded to Sam Houston State Teachers College, and second place was awarded to Texas College of Arts and Industries. West Texas State Teachers College won first place in the serious short story division with Simmons University and McMurry tying for second place. N. T. S. T. C. won first place for humorous short story with Stephen F. Austin and W. T. tying for second place.

Election of officers and the selection of a meeting place for 1933 were the chief features of Saturday afternoon's business session. Kingsville and Texas College of Arts and Industries was selected for the meeting place. Herschel Cudd of A. & I. was elected president; William Body, A. & I. vice president; Hubert Owens, A. & I., treasurer; John Terry, Nacogdoches, corresponding secretary; William Beeman, Wichita Falls Junior College, reading secretary; John Griffin, Simmons publicity manager.

Mr. and Mrs. J. R. Jackson and family moved to Wellington this week where Mr. Jackson will be in the employ of the Continental Oil Company.

Miss Anice Meyers who has been in Plainview for the past five weeks visiting with her sister, Mrs. J. D. Price, returned to her home here Saturday.

Homer Price transacted business in Boise City, this week.

Mrs. O. W. H. Cook of San Diego, Calif., was here Saturday with her daughter Mrs. H. K. Stanfield of Amarillo, visiting at the home of Mrs. A. W. Hamill.

Dr. D. M. Stewart left Tuesday for Dallas for a physical examination and consultation with specialists.

### BAPTIST CHURCH

Mr. L. A. Woods of Waco will speak at the Baptist church at the 11 o'clock hour Sunday. Other services as usual.

### COOPERATIVES SERVE

Cooperative marketing associations for farm products are not particularly new in this country, but some of the conditions under which they are forced to operate at this time are. The cooperative idea is inherently sound or it never could have stood the abuse and misuse of years as it has. Much of the progress of the movement is due to the vision of leaders founding successful marketing associations, according to Professor James Drury of New York University. "Many cooperatives have failed," says Professor Drury, "because money return has been the sole measure of success."

Money values alone are no longer sure measures of worth. Through cooperatives, it is believed that American farmers may lead the way to a new type of civilization, based on a true sense of values. They are learning, through cooperation, that they must give as well as get. Something more deep-rooted than present money return must be the basis of organization of a cooperative marketing concern that expects to live and grow in the future.

Farmers must accept changes of the times. Industry is adjusting itself to meet new situations. Cooperative marketing offers a ready means of change from old methods to newer, sounder and more progressive programs for the disposal of farm products.

### TWO MATHEMATICAL FACTS

The safety of life insurance, as an institution, is guaranteed by two simple but irrevocable facts—the multiplication table and the law of mortality.

There is no guess work involved. There is no dealing in futures. There is no room for unsubstantiated theories. There is only the experience of hundreds of years and mathematical facts which are as unchangeable as the tides.

This is what makes life insurance the safest investment. This is why it has never deviated in soundness during a period of almost unprecedented decline. And this is why more and more of our citizens are turning to it as a haven for their savings.
